WASHINGTON 25, D. C.

REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1951, any article of the following named classes of published works deposited for copyright between January 1, 1947, and January 1, 1948, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Contributions to periodicals.
Works of art; models or designs for works of art.
Reproductions of a work of art.
Drawings or plastic works of a scientific
  or technical character.
Photographs.
Prints and pictorial illustrations excluding
  prints or labels used for articles of merchandise.

Other published works and all unpublished works are not included in this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6-35347

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Register of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: $1.50 per issue, $3.00 per year.

PREFACE

WORKS registered for copyright in Class A, Books, are divided between Parts 1A and 1B of the *Catalog of Copyright Entries*, with the exception of greeting cards, which are listed in Parts 7–11A.

Part 1A contains domestic and foreign books and pamphlets, registered under the symbols A, AF, and AI, which have been selected for the general collections of the Library of Congress. They constitute, in general, the current output of the book publishing industry of the United States and the works of foreign origin of present potential interest to the American book trade. Part 1A includes trade books (novels, poetry, biographies, travel books, children's books, etc.), scientific and technical books, reference books, dissertations and monographs of scholarly importance, books issued by university presses and other similar monographic works.

Part 1B lists all other works registered for copyright in Class A, usually distinguished by the symbol AA. These are predominantly of a pamphlet or serial nature and comprise a wide variety of domestic and foreign works. Pamphlet material includes reports, surveys, manuals, instruction books, tests, as well as other monographic works in all subject fields. Typical of the serial material are yearbooks, directories, trade catalogs, commercial, industrial and legal services in loose-leaf or pamphlet form, etc. Contributions to periodicals of a literary nature registered in Class B under the symbol B5 are listed in Part 1B. Included also in the catalog are the following registrations of copyrightable printed matter which appears upon materials of diversified physical form; and foreign periodicals which have been registered under the symbols AF and AI and not included either in Part 1A or Part 2.

Works listed in this catalog were registered in the Copyright Office from January 1, 1950, through June 30, 1950. Renewal registrations made in these classes are listed in Parts 14A.

Arrangement.—The main section consists of an alphabetical arrangement of complete entries under main headings (author, editor, compiler, or title) and of brief entries in the form of cross-references from joint authors, editors, etc. Following the main section is an index to titles.

Bibliographic Data.—Under its heading each main entry includes, as applicable 1) the title as given on the title page; 2) names of all joint authors—unless there are more than three, in which case only the first is given—illustrators, editors, compilers, translators, and authors of prefatory material; 3) edition statement, together with any available information of previous publication under a different title; 4) imprint, consisting of place of publication, publisher and date of publication (imprint data is omitted in whole or in part when the information supplied to the Copyright Office has indicated that the claimant given in the copyright statement is also the publisher and that the date of publication agrees with the corresponding data given in the copyright statement); 5) collation, consisting of pagination or number of volumes and the abbreviation "illus." to indicate any illustrative matter not shown elsewhere in the entry; 6) series.

Each added entry cross-reference consists of the name of the joint author, illustrator, editor, etc., and the title of the main work, followed by reference to the heading under which the complete entry will be found.

Copyright Data.—The portion of the entry giving the facts of copyright registration begins with the copyright symbol ©. This is followed by: 1) a brief statement of the new matter on which copyright is claimed when such a statement is given in the copyright application (this statement is omitted when the edition specified in the bibliographic data represents the new matter); 2) the name of the copyright claimant, the chief place of publication given on the title page (if not given in a separate imprint statement); 3) date of publication as given in the application; 4) registration number. For ad interim works, the date the work was deposited in the Copyright Office, preceded by the abbreviation "1c" or "2c," is also given.

Any information contained in the copyright application which relates to the registration of an earlier version of the work is transcribed, as given in the application, after the clause: "Appl. states prev. reg."

The *Catalog of Copyright Entries* records the claimant in whose name a work is originally registered, and contains no record of subsequent changes of ownership. For information relating to transfer of rights, search in the assignment records of the Copyright Office will be undertaken upon request to the Register of Copyrights and upon payment of the statutory search fee.

Deposit of Copies.—In the case of every copyright entry listed in this part of the *Catalog* the deposit of copies (or copy) as required by sections 13 or 215 of Title 17 of the United States Code has been made.

Authority.—The *Catalog of Copyright Entries* is published by authority of sections 210 and 211 of Title 17 of the United States Code. Section 210 provides that the *Catalog* "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Organization of the Catalog.—This issue of the *Catalog* is part of Volume 4 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in section 5 of Title 17 of the United States Code. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the Table of Organization which faces the title page in this issue. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. Foreign works for which two copies have been deposited, under Section 215, of Title 17 of the United States Code are distinguished by a zero immediately following the class symbol. The symbol R does not represent a class designated by the Copyright Act, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under other symbols if the subject matter or type of material of these registrations is similar to that generally included in the part.

Orders.—The Office calls attention to the fact that orders for all parts of the *Catalog* should be sent directly to the Register of Copyrights, Library of Congress, Washington 25, D. C. Orders may be placed as follows: (1) as a subscription for a single year or to continue until further notice, or (2) as an order for individual issues. All orders should state clearly the title of the Catalog part and the inclusive dates of the issues wanted. For the convenience of subscribers, payment may be made either with the order or upon receipt of an invoice from the Copyright Office. *Checks or money orders should be made payable to the Register of Copyrights.*

The price of each individual number of the *Catalog* is given in the Table of Organization. The annual subscription rate for each part is twice the price of a single number, since all parts are issued semiannually. The complete *Catalog of Copyright Entries* may be secured on a subscription basis for $20 a year.

Inquiries.—The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Please address communications of this nature to the *Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.*

ABBREVIATIONS

The following list includes abbreviations used in this catalog with specific copyright and bibliographic meanings. Definitions are not given for abbreviations in common use.
